This highly interactive program, ideal for intermediate language levels, enables students to reinforce grammar, vocabulary, spelling, and listening comprehension skills through a variety of exciting activities. Produced in France, this unique program offers content and an interface exclusively in French that challenge students and provides countless opportunities for learning in a stimulating format. The program requires students to put their knowledge to work to complete the tasks that are set before them and increase their overall score. In *La Ville des Erreurs* (The City of Errors), students identify errors within a sentence and correct them, and in *Le Vaisseau des Jeux de Mots* (The Ship of Word Games), students employ comprehension skills to choose the word in the sentence that is an anagram of a word that makes greater sense in its place. *Le Puzzle des Mots* (Word Puzzle) offers a group of random syllables to be reformulated into a series of words that fall within a specified category or theme. In *Devinettes Orthographiques* (Word Riddles) and *Le Bon Choix* (The Right Choice), students select the word that suits the given context and specifications, as they do in *Les Définitions Secrètes* (Secret Definitions) with the pieces of the required words appearing as clues. Once they enter *Le Château de la Dictée* (The Dictation Castle), students listen to a narration and complete the gaps in the corresponding written paragraph, and once in *La Grotte des Mots Perdus* (The Cave of Lost Words), they view a series of words as they flash across the screen and then use these words to complete the sentences that follow. Help is available in every section of the program. MW = Hybrid
