Saxon Homeschooling Math

Homeschool Kits contain:

Teacher's Manual - Daily lessons, preclass preparation instructions, a list of needed materials, and the entire scripted lesson.

Student Workbooks - All necessary student materials come bound in two workbooks, including practice pages, masters, and fact cards. (No student workbooks for Math K.)

Meeting Book - Use for the daily opening exercise where students practice skills ranging from telling time and temperature to counting money and problem solving.

Math K

1st Edition, 112 lessons. *Math K* develops skills including oral counting, recognizing and sequencing numbers; acting out addition and subtraction stories; counting with one to one correspondence; identifying and counting pennies, nickels, dimes; sorting; telling time to the hour; and using a calendar.

017XSXN \$63.50

Math 1

1st Edition, 130 lessons. *Math 1* teaches your child to compare and order numbers; extend patterns; solve problems; master all basic addition facts and most basic subtraction facts; add two-digit numbers without regrouping; picture and name fractions; measure using inches, feet and centimeters; and create, read, and write observations from real graphs, pictographs and bar graphs.

0188SXN \$93.50

Math 2

1st Edition, 132 lessons. *Math 2* teaches your child to strongly identify sorting and patterning rules; master multiplication facts to 5; add and subtract two-digit numbers; compare volume; compare and measure mass; measure perimeter and area; tell time to five minute intervals; identify lines of symmetry, angles and more.

0196SXN \$96.50

Math 3

1st Edition, 140 Lessons. *Math 3* teaches your child to master all addition, subtraction, multiplication and division facts; identify volume, compare and measure mass; identify place value; multiply multi-digit number by a single-digit number; divide by single-digit divisors; tell time to the minute; count money; make change and more.

020XSXN \$99.50

Manipulatives

Required for K-3. Complete set of manipulatives for K-3 (430 pieces in a convenient storage container). Usage instructions included in Teacher's Manual. Separate one-time purchase. Used in all primary math programs.

02104SXN \$64.50

Saxon Homeschooling Math

Math 5/4

3rd Edition, 120 lessons & 12 Investigations. *Math 5/4* is a balanced, integrated mathematics program that includes incremental development of whole number concepts and computation; arithmetic algorithms, geometry and measurement; elapsed time; fractions, decimals and percents; powers and roots' estimation; patterns and sequences; congruency and similarity; and statistics and probability.

3478SXN \$64.50

Math 6/5

3rd Edition, 120 lessons & 12 investigations. *Math 6/5* expands upon *Math 5/4*. Your child learns to apply mathematical tools and techniques to real-life mathematical situations using word problems. Includes incremental development of order of operations; geometry and measurement; integers; divisibility concepts; ratios; statistics and probability; prime and composite numbers; patterns and sequences; and powers and roots.

3486SXN \$69.50

Math 7/8

4th Edition, 120 Lessons & 12 Investigations. *Math 7/8* introduces the new concepts, procedures, and the vocabulary your child needs to be successful in upper-level algebra and geometry courses. *Math 7/8* teaches compound interest; functions and coordinate graphing; integers; exponential expressions; divisibility concepts; prime factorization; ratios and proportions; radius; circumference and pi; statistics and probability; and complementary and supplementary angles.

3494SXN \$74.50

Math 8/7

3rd Edition, 120 Lessons & 12 Investigations. *Math 8/7* is the pre-algebra program for students who have completed *Math 7/6*. It emphasizes the concepts and skills necessary for your child's success in upper-level mathematics courses, including scientific notation; statistics and probability, ratios and proportions; simplifying and balancing equations; factoring algebraic expressions; slope-intercept form; graphing linear inequalities; arcs and sectors; and the Pythagorean theorem.

3508SXN \$79.50

Algebra 1/2

3rd Edition, 137 Lessons. *Algebra 1/2* covers all the topics normally taught in pre-algebra, as well as adding topics from geometry and discrete mathematics. *Algebra 1/2* represents the culmination of the study of pre-algebra mathematics, from review of arithmetic operations to evaluations and simplification of algebraic expressions, word problems involving algebraic concepts, and classification of geometric figures and solids.

499XSXN \$63.50

Algebra 1/2 Solutions Manual with step-by-step solutions to the problem sets.

1311SXN \$30.00

Basic Fact Cards help students master basic arithmetic facts. Addition, subtraction, multiplication, and division problems are printed on two-sided cards.

0137SXN \$5.00

Saxon Homeschooling Math

Saxon's upper grades mathematics Homeschool Kits include everything you need to successfully teach each course. Each kit includes a textbook, an answer key for homework, and tests with answers.

Algebra 1

3rd Edition, 120 Lessons. *Algebra 1*, like all Saxon Math courses, includes five instructional components; introduction of the new increment; examples with complete solutions, practice of the increment, daily problem sets, and cumulative assessments. *Algebra 1* covers all topics introduced in a first-year algebra course. Topics range from algebra-based, real-world problems to functions and graphs; and from algebraic proofs to statistics and probability.

1230SXN \$64.50

Algebra 1 Solutions Manual with step-by-step solutions to the problem sets.

1370SXN \$30.00

Algebra 2

2nd Edition, 129 Lessons. *Algebra 2* not only covers all the topics of second-year algebra, but also includes a considerable amount of geometry, including writing proof outlines. When your child completes this course, he or she will have studied the equivalent of one semester of informal geometry.

1257SXN \$64.50

Algebra 2 Solutions Manual with step-by-step solutions to the problem sets.

8999SXN \$30.00

Advanced Mathematics

2nd Edition, 125 Lessons. *Advanced Mathematics* interweaves topics from algebra, geometry, trigonometry, discrete mathematics, and mathematical analysis to form a fully integrated text. A rigorous treatment of Euclidean geometry is also presented. Conceptually oriented problems that prepare students for college entrance exams such as the ACT and SAT are included in the problem sets.

1273SXN \$67.50

Advanced Mathematics Solutions Manual with step-by-step solutions to the problem sets.

0420SXN \$30.00

Calculus

1st Edition, 117 lessons. *Calculus* treats all the topics normally covered in an Advanced Placement AB-level calculus program, as well as many topics from a BC-level program. The problem sets contain multiple-choice and conceptually oriented problems similar to those found on the Advanced Placement examination. Numerous applications to physics, chemistry, engineering, and business are also included. Successful completion of the course has helped many students score well on the Advanced Placement examination.

1990SXN \$73.50

Calculus Solutions Manual with a step-by-step solutions to the problem sets.

8352SXN \$34.50

Physics

1st Edition, 100 Lessons. *Physics* was written with both average and gifted students in mind. Consequently, gifted students using this program will have great success with the Advanced Placement physics examination, and average students who are willing to do the homework will also be able to pass the examination. Topics from the Advanced Placement Level B Exam can be covered before the exam is given in early May.

2016SXN \$69.50

Physics Solutions Manual with step-by-step solutions to the problem sets.

0072SXN \$30.00

Saxon Homeschooling Social Studies

Steck Vaughn Social Studies

Grades 1-6, Reading Levels 1-4. Provides grade-appropriate content without the too-difficult reading levels found in other programs. Develops map skills, reflective reading, high-level thinking, and more. Includes Web-based activities and enrichment! Softcover.
